CHUNK

A collaboration by Anna Karlin & Fernando Mastrangelo.

CHUNK is a limited edition series of 5 works each with a different shape and material composition.

Each piece is available in an edition of eight.

Mastrangelo and Karlin work across wide ranging disciplines in their respective studio practices, with a shared interest in functional sculpture, which formed the basis of their collaboration.

CHUNK brings together the distinct aesthetic and formal signatures of each designer, with Karlin's iconic Chess Piece series reimaged through Mastrangelo's signature casting technique and material palette.
