

FIELD HEADBOARD

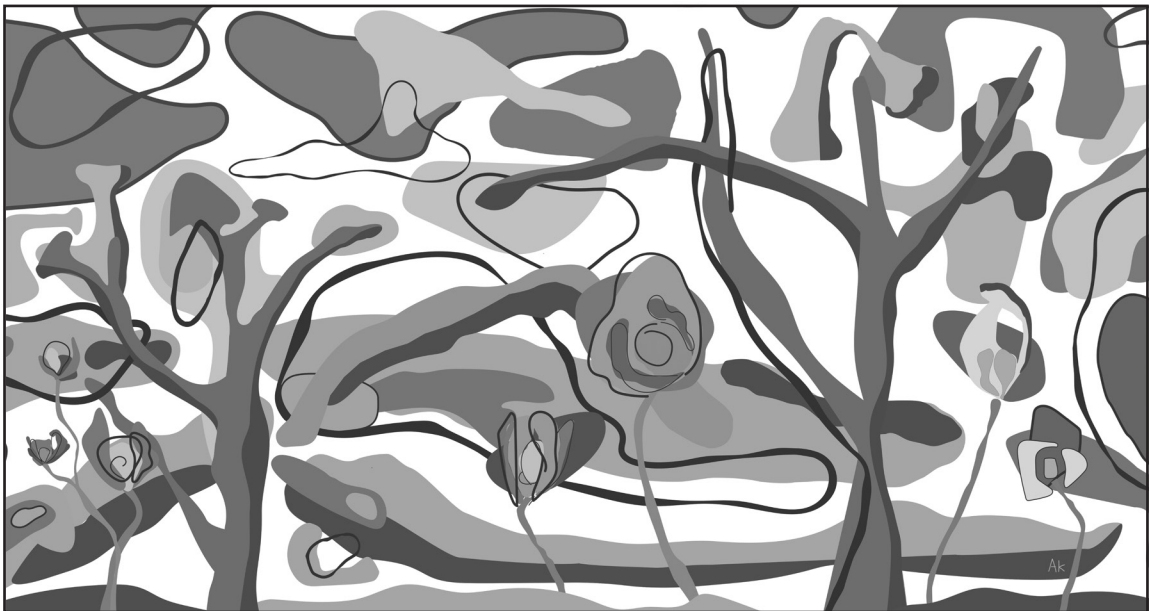

SAFETY INFORMATION

Suitable for dry, indoor use only.

MAY REQUIRE 2 PEOPLE TO MOVE. 30-60LBS

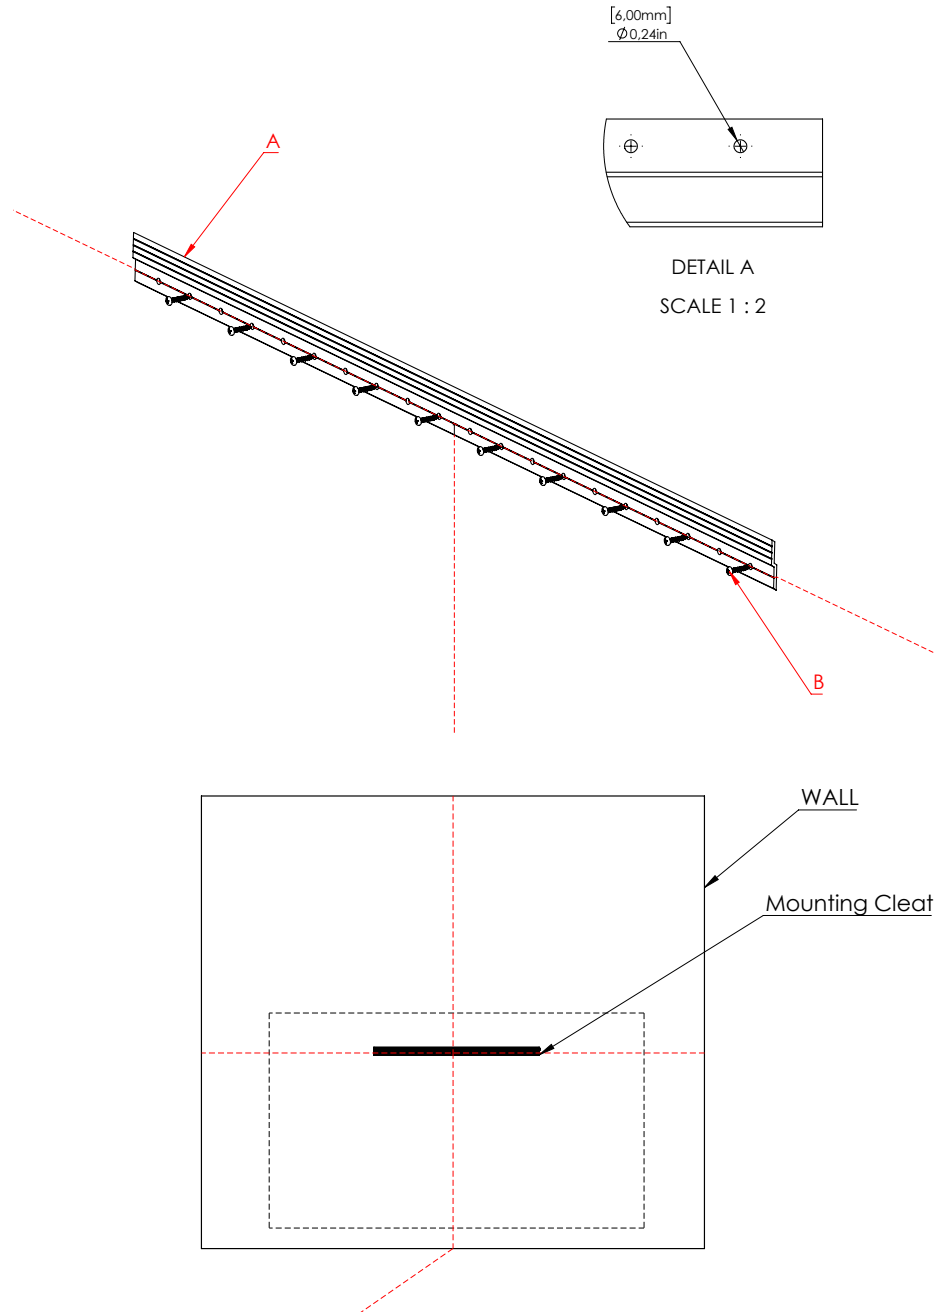

HARDWARE

1X CLEAT, 1X HEADBOARD

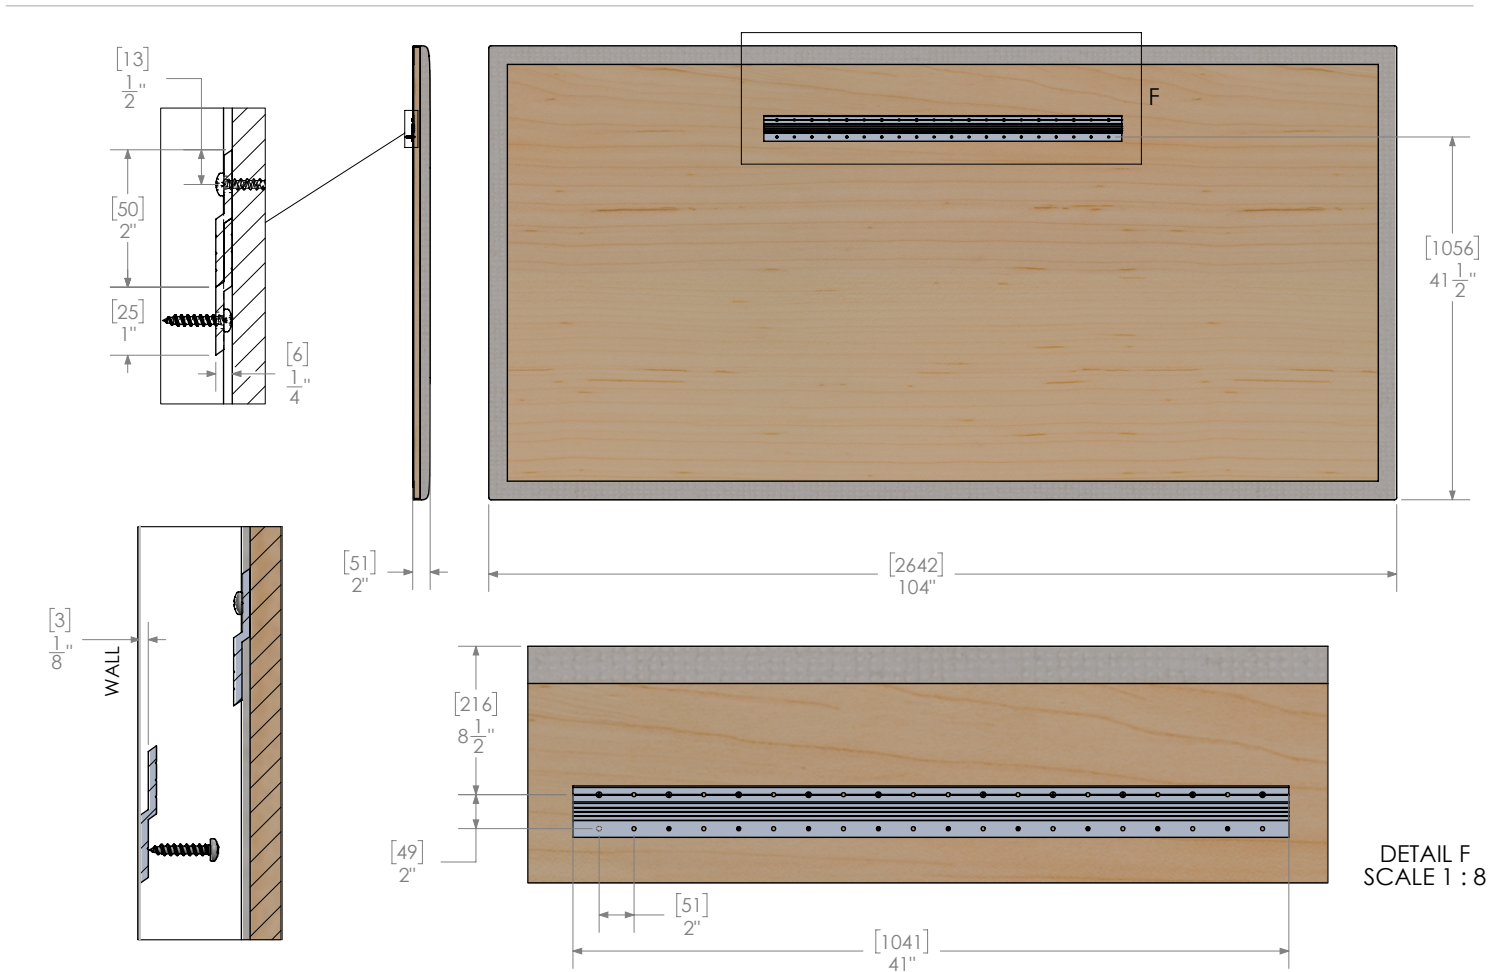

FIELD HEADBOARD

1. Carefully unpack all parts.
2. Using a laser level and cleat (A), mark screw holes on your surface/wall.

FIELD HEADBOARD

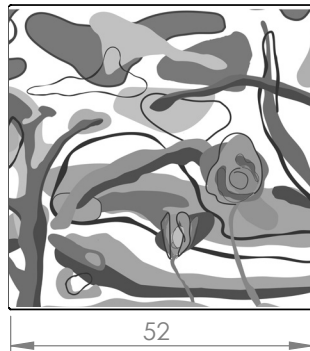

3. Drill holes and add appropriate screws & anchors (#12 screws/anchors **not included**) to mount the cleat firmly to your wall. Make sure to account for any skirting on bottom of the walls.
4. Lift the headboard so the cleat on the back of the headboard is aligned and slightly above the cleat installed on your wall.
5. Carefully push the headboard towards the wall and lower until cleats latch together.
