

PENDANT MIRROR

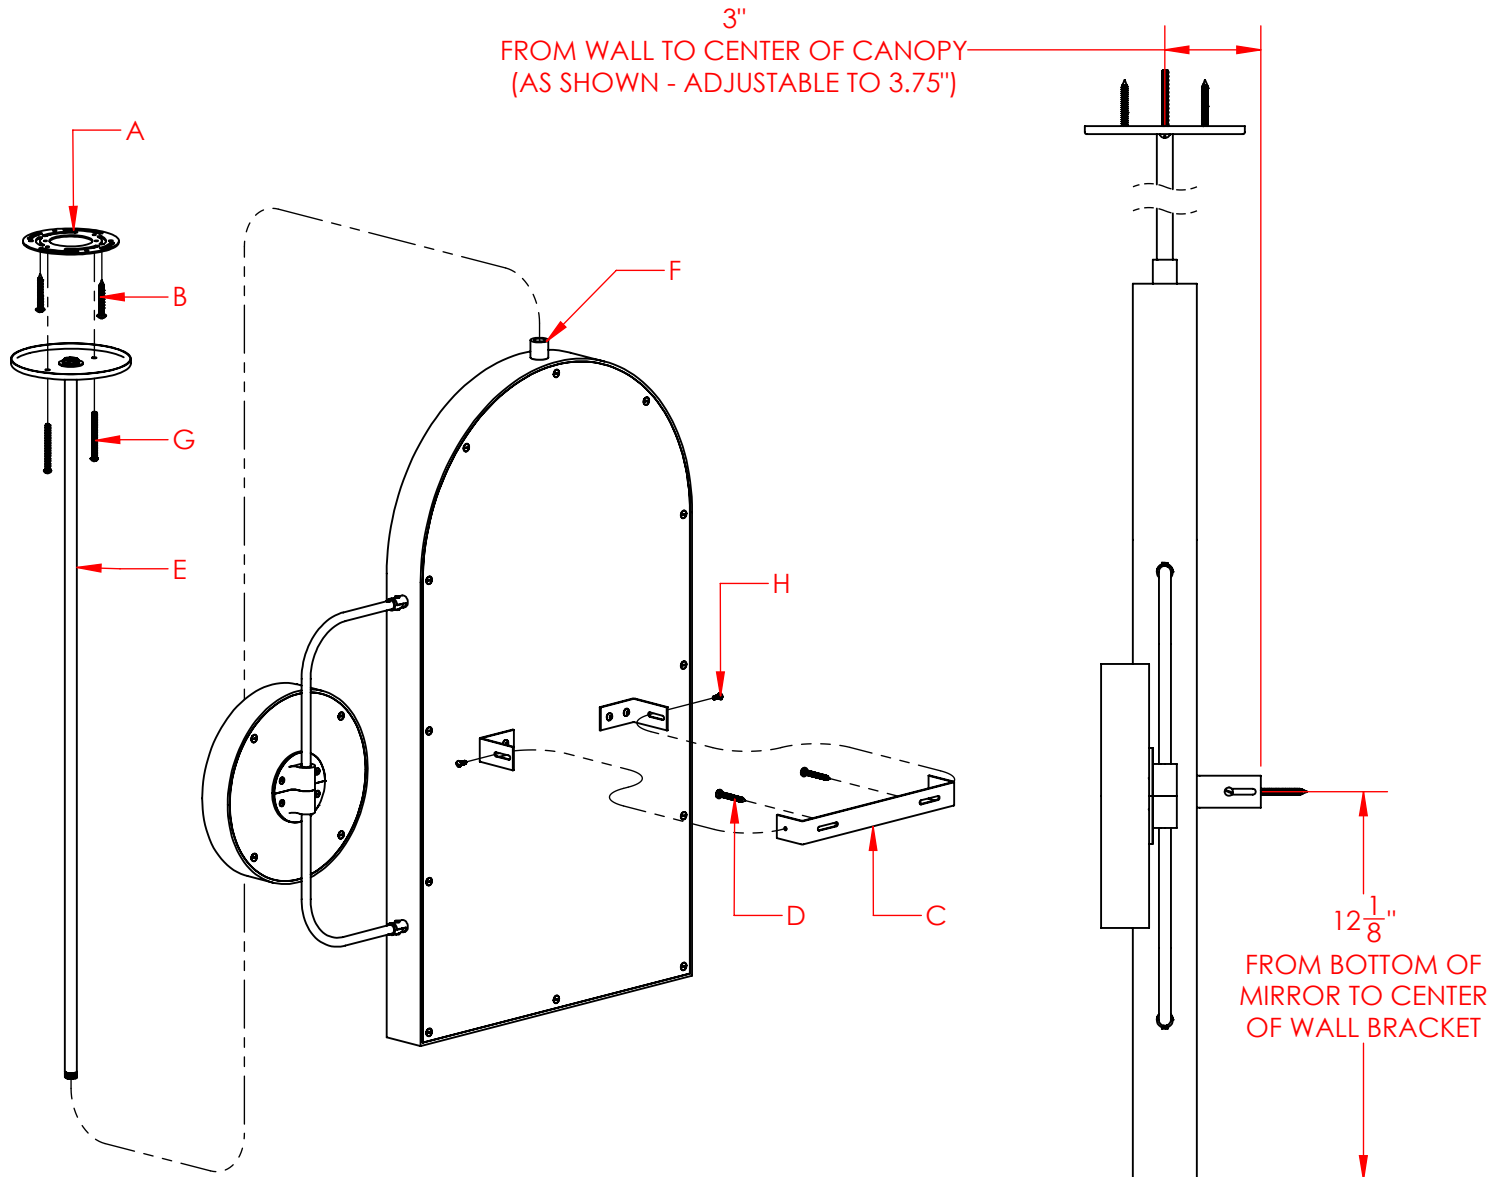

SAFETY INFORMATION

INSTALLATION OF THIS MIRROR REQUIRES 2 PEOPLE.

PENDANT MIRROR

1. Install ceiling bracket (A) at desired location using appropriate mounting hardware (B, NOT INCLUDED). Make sure there are holes drilled behind the bracket to accommodate the finished screws (G) used in Step 4. Bracket to be installed between 3" and 3-3/4" from the wall, on center.
2. Install wall bracket (C) using appropriate mounting hardware (D, NOT INCLUDED). Bracket to be installed 12-1/8" above the bottom of the mirror, on center, directly below the ceiling bracket.
3. Thread drop assembly (E) onto coupling at top of fixture body (F).
4. Lift assembled mirror up to ceiling bracket and attach using finished screws (G).
5. Attach mirror body to wall bracket by passing finished screws (H) through slots on tabs. Adjust horizontal alignment so the mirror is hanging plumb vertically, then tighten screws.
