LAMPING

1 4.5W G9 LED bulb, 2700K color temperature.

SEED POD

1. Unwrap carefully. Slide back leg (A) up cord. and attach to center joint (B). While screwing on, make sure that the cord is running straight out the bottom of the leg pipe.
2. Bend cord over so it fits into mousehole, then attach leg cap (C), as shown in detail 2.
3. Rest curved arm (D) on forked base (E). Make sure that peg in center of fork fits entirely into hole on underside of arm.
4. Attach left and right legs (F). Legs may need to be adjusted slightly to make sure all points make secure contact with the floor.
5. Install included bulb (G), then screw glass globe (H) firmly in place. Do not overtighten.
