

INTERVENTION FLOOR LIGHT

This lamp explores the relationship between glass and light, subverting their normal interaction. Light is usually an ethereal concept while glass is a hard casing. Here glass becomes the softer of the two in the partnership, and the light becomes an intervention in the sculpture. The light becomes a graphic line in the transparent form.

Materials

Borosilicate Glass
Glass
Brass

Standard Finishes

Notes

Lamping: 12v LED strip. 1600 lumens, 2700K color temperature. 120V.
